

NuWeld, Inc.

Pressure Vessel & Tank Inspections & Registrations

STATE OF PENNSYLVANIA

Under PA Law, Chapter 3a. "Boilers and Unfired Pressure Vessel Regulations" as amended by Senate Bill 802, it is required to have vessels inspected and registered before use in PA.

As an "R" Stamp Holder, authorized to repair ASME Section VIII Pressure Vessels and Section I Boilers, we provide services in accordance with our Master Service Agreement when a repair is necessary whether discovered during the State In-Service Inspections or otherwise.

NuWeld also provides new vessels, alterations to vessels or re-rating of existing vessels.
